

Female

The evolution of primitive vegetation, to develop color, smell and mechanism.

Confession

Follow a religious doctrine or general humanistic values?

Semiotic

Blue print of an unknown language, yet to be decrypted.

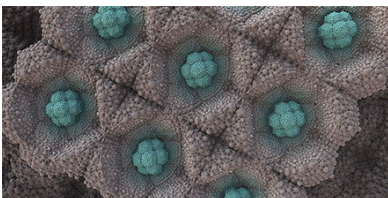

Residual Value

Cradle to cradle, discarded polluting articles may get later value again and be reused.

Signature

A quantum based unique subatomic resonance which is constant across all matter in the universe.

Bioenergetics

Who wants to live forever?

Source Code

The beginning of life started under the earth's crust.

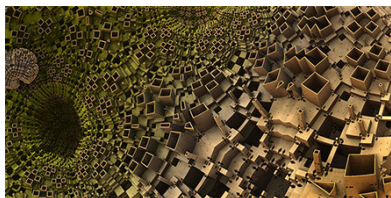

Treeline

The dilemma of data collecting and privacy.

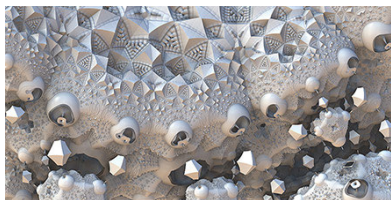

Primer

Sequencing data as a living DNA storage method.

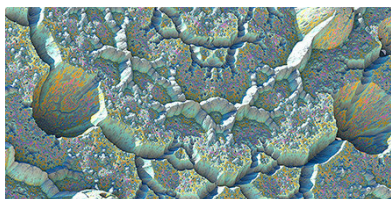

Favela

Structures of spontaneous generative architecture.

Data Whiskers

Imaginary visualisation of corruption data.

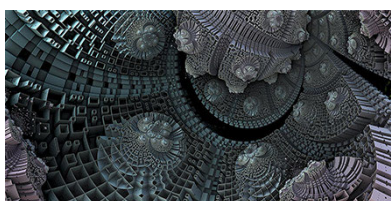

Morphogenesis

Creative nutrient substances that support microbiological metabolism.

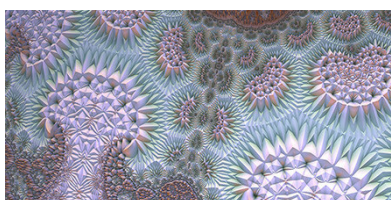

Memory

In remembrance of flight MH17.

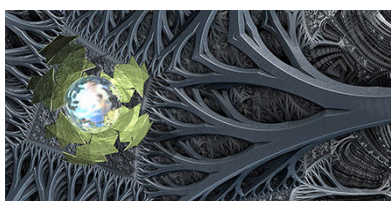

Urbanisation

The rise and hunger of satellite cities.

Artificial

Self generative nano structures will reproduce real life?

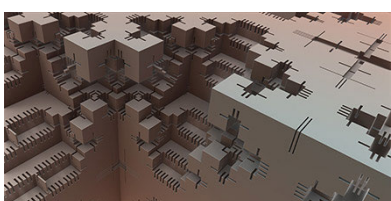

Free Energy

The energy problem is solved, everyone will be self-sufficient!

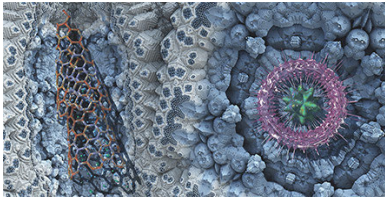

Nanite

Nanomachines will be grown in a manner similar to the way plants evolve from seeds.

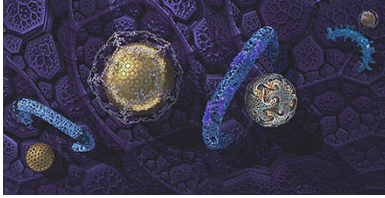

Ecophagy

'Grey Goo', the literal consumption of our ecosystem by selfreplicating robots.

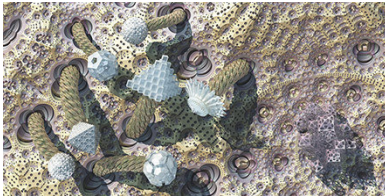

Tokens

Symbols of sentimental value, causes one to remember.

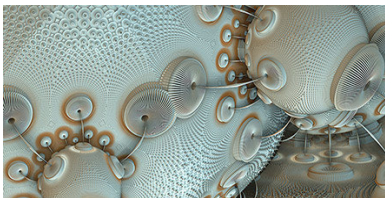

Relativity

It is a cosmic game of fundamental experiments to prove infinity.

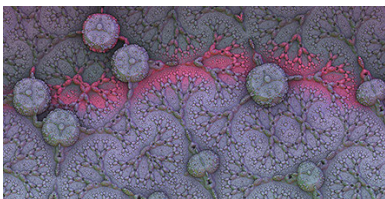

Dongles

Organic connectivity, synaptics to a natural ID.

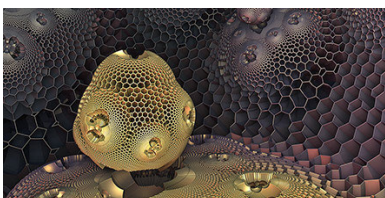

Wiretapping

Monitoring the "Wiretap Act".

Metabolic Pathway

Masterchef of the primordial soup.

Honeypot

Catching Hackers by tracking and seducing them with likely interesting data.

Incanic

Abstract composition, inspired by my visit to Peru.

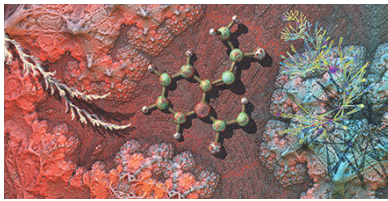

Quanta

Can billions of different universes coexist within one quantum computer?

Unknown

Life on earth, did it originally come from outer space?

Medicine

Nature provides us with all kind of medicine, you just have to discover it.

Recursive

Growing recursive self-improvers.

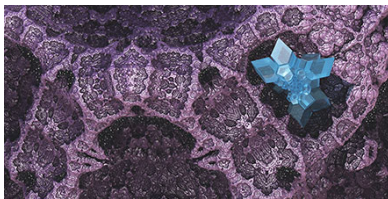

Cipher

Cryptology inspired by the 'Enigma' history.

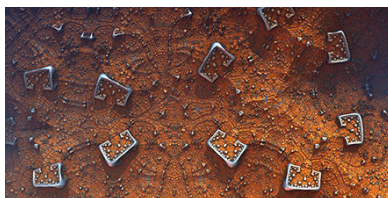

Prophet

Colonisation with supreme technology, no scarcity of water, food and energy.

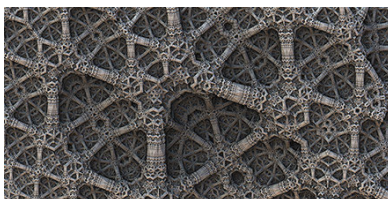

Specimen

Undefined mineral, in my hope to discover a not scientific recorded mineral or fossil one time.

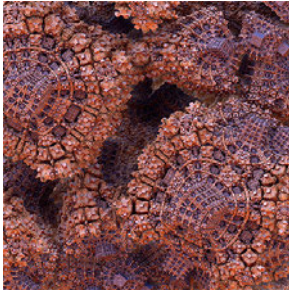

Runes

Future technology predictions.

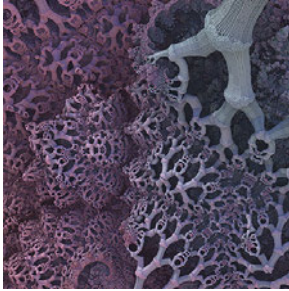

Decussatio

Plants Can Make Memories. Brains Aren't Needed for Making Memories.

Rare-Earth

Complex life in the universe is exceptionally rare.

Absorption

Based on vegetative philosophy, trees and plants do have a hierarchical system of water access.

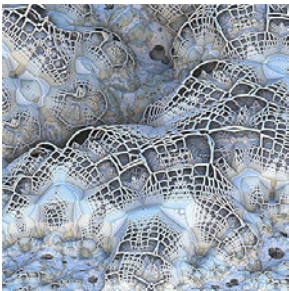

Valhalla

After life, the concept of Valhalla continues to have influence in modern popular culture.

Neuromorphic

Simulate electronic analog circuits to mimic neuro-biological architectures present in AI.

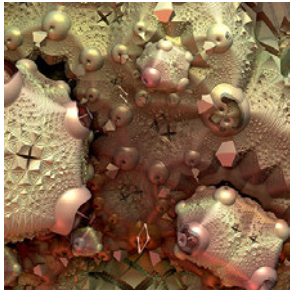

Brute-Force

Exhaustive key search to a natural antibiotic discovery.

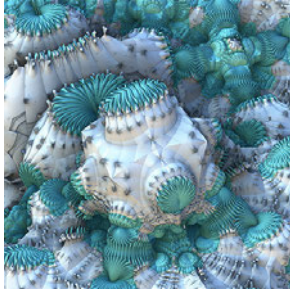

Gardens of Eden

Zen gardens for inner reflection.

Alchemy

My formula changing ordinary metals into gold.

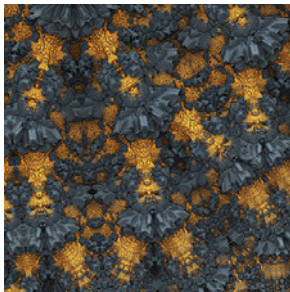

Hydroponic

Artificial generated plant growing without soil and living on greenhouse gases.

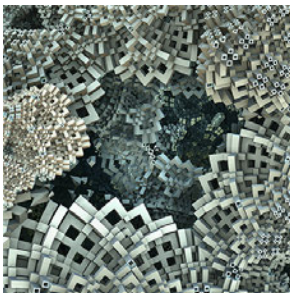

Circuit 51

Top secret! – are we using alien technology on earth.

Nutrient

Nutrient-On-Demand, smart nutrients in sync with the plant life cycle.

Dimensions

How many dimensions are there?

Gen

Natural connection to disease resistance and drought tolerance.
